# WHY IS INTEGRITY IMPORTANT ?

➤ Primarily, integrity in the workplace is so important as these traits foster a positive workplace culture. One where there is open communication, good decision making and a strong moral compass guiding all decisions and actions. Whereas, irresponsible behaviour and distrust can make a work environment uncomfortable and tense.

➤ If you are known for your integrity, you will gain trust and respect from the people around you.

**WRONG**  
is **WRONG**,  
even if *everyone*  
is doing it.

**RIGHT**  
is **RIGHT**,  
even if *no one*  
is doing it.

➤ Integrity is not just important on a personal level, it is also vitally important at a workplace level. Organisations known for their integrity perform better.

➤ What customer wants to deal with an organisation that doesn't keep their word, that says one thing but does something else or that offers bad products or services? They wouldn't. Instead they would want to deal with the organisation who can be trusted to follow through with what they have agreed upon, that have trustworthy employees and a good brand message.

# INTEGRITY

- ✚ If someone gives you confidential information ,never tell anyone what you know.
- ✚ When it is obvious to you a relationship is over ,don't drag it out but discuss it openly.

# INTEGRITY AT WORK PLACE.....

- Don't let teammates take the fall. Work together as a team. This builds trust and shows integrity.
- Never steal supplies from the work place.
- If you find yourself in a conflict of interest ,get out of it as soon as possible.
- Don't accept praise of acclaim for some one else's work. That includes stealing someone's idea or pretending to have worked on a successful project
- When making a business deal ,make sure everything is on the table and nothing was left out .
- If your company asks you to do something against your personal code of conduct ,refuse. If it means losing a good paying job ,so be it .find a more ethical company to work for.

# PROFESSIONAL MATURITY HELPS IN THE WORKPLACE:

Professional maturity is the ability to respect other people's diversified cultural backgrounds and unique set of experience. In the workplace, judgment should be based on mutual consensus supported with facts, rather than emotional and instincts. It is also an ability to control anger and settle differences without violence or destruction. A mature person can face unpleasantness, frustration, discomfort and defeats without collapsing or complaining, as it is a fact that one cannot have everything his own way all the time.

**A transparent workplace emphasizes communication and honesty.**

**"Honesty is the best policy"**

**"Your reputation is more important than your paycheck, and your integrity is worth more than your career"**
